

BEADING LOOM <Accessories>

Earrings

Finished Size: Approx. 2.5 cm x 2.6 cm. (17 stitches x 15 rows)

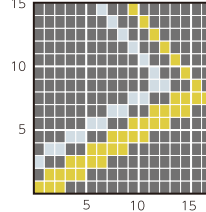

Materials

- Cylinder beads (11/0):
Black 2.4 g / Gold 0.6 g / Silver 0.3 g
- Cut beads
Grey (5 mm) x 2/ Gold (4 mm) x 2
- Earring fittings x 1
- Jump rings (4 mm) x 4
- Beading thread (#60 Polyester): Black

Instructions

1. Adjust the length of loom to fit the length of woven piece 5.5 cm, shortest position.
2. Warp the loom. 18 warp threads.
See the instructions [Warp thread technique A].
3. Hide the warp & weft threads.
4. Have another thread and pass the needle through the piece zigzag as the illustration ★ Zigzag above.
Then, finish it as the illustration.

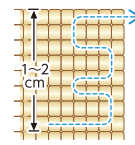

Earring Diagram

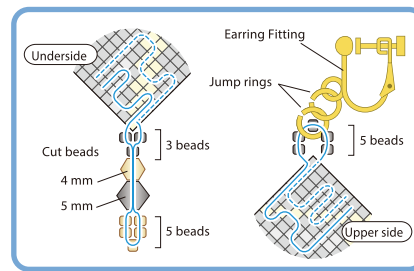

★ Zigzag

When decorating the material, start by passing a new thread through in a zigzag pattern.

Pierce the needle initially 1-2 cm from the edge of the piece. Continue in a zigzag pattern, making sure to go through 2-3 weft rows. Exit in a similar way to the initial insertion.

* Try not to pass through the same area more than once.

Bracelet

Finished Size: Approx. 1.1 cm x 16.3 cm. (8 stitches x 97 rows)

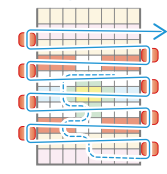

Materials

- Cylinder beads (11/0): Red 1.4 g / Orange 1.3 g / White 1.2 g /
Cyan 1.2 g / pink 0.7 g / Blue 0.4 g / yellow 0.2 g
- Pearl (8 mm) x 1
- Beading thread (#60 Polyester): White

Instructions

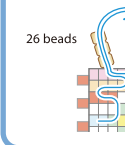

1. Adjust the length of loom to fit the length of woven piece 18.5 cm.
2. Warp the loom. 9 warp threads. See the instructions [Warp thread technique A].
Then, weave as show in the diagram of bracelet.
3. Hide the warp & weft threads.
4. Have another thread and pass the needle through the piece zigzag as the illustration ★ Zigzag above.
Then, make the picot as the illustration.
5. Have another thread and pass the needle through the piece zigzag as the illustration ★ Zigzag above.
Then, make the loop and the ball to finish as the illustration.

How to make the picot

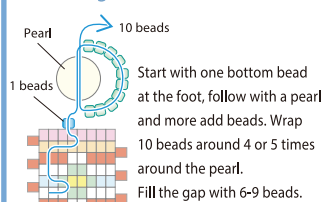

Making the loop

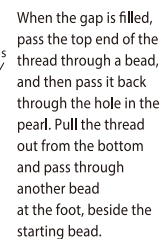

Pass through 3 times to make the loop.

Making the ball

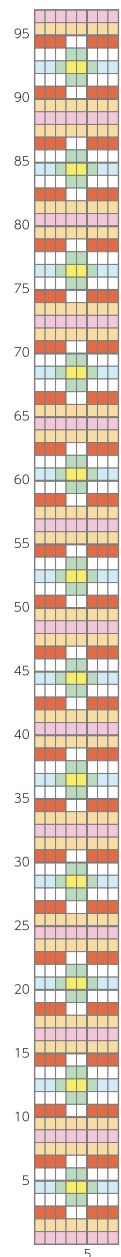

Start with one bottom bead at the foot, follow with a pearl and more add beads. Wrap 10 beads around 4 or 5 times around the pearl. Fill the gap with 6-9 beads.

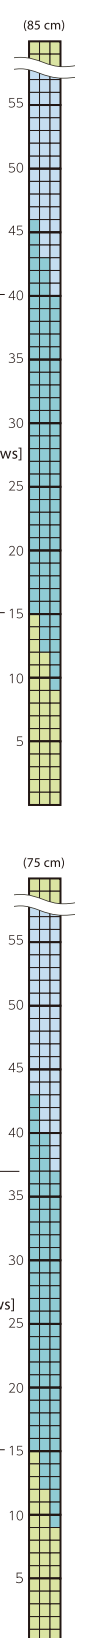

When the gap is filled, pass the top end of the thread through a bead, and then pass it back through the hole in the pearl. Pull the thread out from the bottom and pass through another bead at the foot, beside the starting bead.

Bracelet Diagram

Necklace Diagram

Necklace

Finished Size: Approx. 0.4 cm x 85 cm. (3 stitches x 496 rows)
Approx. 0.4 cm x 75 cm. (3 stitches x 448 rows)

Materials

- Cylinder beads (11/0):
Any color x 16 1.1 g each.
- Beading thread (#60 Polyester); Any color

Instructions

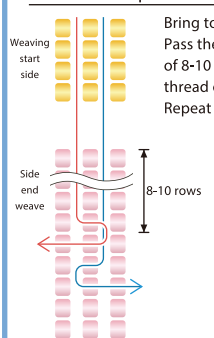

1. Adjust the length of loom to fit the length of woven piece 21.5 cm; the longest position.
2. Prepare 4 warp threads with 115 cm or 125 cm, depending on your desired length of necklace.
Warm the loop. See the instructions [Warp thread technique B].
(Doubling the outside threads allows you to create a stronger piece.)
3. Weave as the Necklace Diagram with all 16 colors.
4. Hide the warp threads and connecting both sides into a circle as seen in the illustration.
5. Hide the weft thread to finish.

Closing off

* Bead colors have been changed to make the chart easier to read
After completing the Center thread, finish the threads at both edges.

1. Interior warp threads

Bring together both ends of the necklace. Pass the thread from one end through the center of 8-10 rows of beads on the other. Take the thread out the edge and cut the thread. Repeat with the other end and fasten the thread.

2. Outer warp threads

As in the image, pass the thread through the center of the beads. Take the thread out the edge and cut the thread. Repeat with the other end and fasten the thread.
