

Crochet Wall Hanging with Fringe

Designed by Debbie von Grabler-Crozier

Tools

- Armour Crochet Hook 5.0 mm (Art No. 1047)
- Tassel Maker (Large) (Art No. 9941)
- Pom-Pom Maker (Large)(65 mm)(Art No. 3126)
- Patchwork Scissors (Large)(Art No. 493/L)
- Patchwork Scissors (Small)(Art No. 493/S)
- Graph Ruler (30 cm)(Art No. 7702)
- Water Erasable Marker (Art No. 515/516)
- Large wool needle
- Your usual crafting needs

(Fine)(Thick)

Material

- Yarn:
 - 1x 50g ball natural tweed DK yarn
 - 1x 50g ball grey tweed DK yarn
- Everything Else:
 - Wool roving in two colours to coordinate with your main yarn
 - TIP: the tweed wool has small flecks through it and I let those colours dictate the colour of the wool roving.
 - Square of felt 30cm sq.
 - Fabric glue
 - Interesting stick – about 30cm long and as thick as your thumb

Crochet Wall Hanging with Fringe

Here' s How:

The crochet panel-

Start with a chain 45 and then Double Crochet (dc) US Single Crochet or sc qqq rows and fasten off.

Weave in the ends top and bottom IMAGE 1.

TIP: watch your edges to keep them dead straight.

Take the wool roving and tease a small amount off.

TIP: this needs to be able to go through the eye of the needle and create plump detail on the crochet panel without being too big.

With the water erasable marker, draw a curved line from the top left hand side of the crochet panel to the bottom right hand corner and stitch the wool roving on following this line IMAGE 2.

With the other colour wool roving, make a row along the bottom of the crochet panel IMAGE 3.

TIP: if your wool roving is a bit fragile, it will keep coming apart and that is very frustrating.

Solve this by laying it onto the crochet panel and using a piece of natural yarn to couch it into place.

IMAGE 3

Crochet Wall Hanging with Fringe

You now have a panel with some open areas which would be perfect for tassels and pompoms IMAGE 4!

IMAGE 4

To make a tassel with the large tassel maker, firstly set up the maker so that it is on the second to largest setting IMAGE 5.

Wrap some grey yarn around the tassel maker 15 times IMAGE 6.

Take a long piece of yarn (around 30cm long) and tie the centre of the tassel IMAGE 7.

Cut the tassel from the maker IMAGE 8.

IMAGE 5

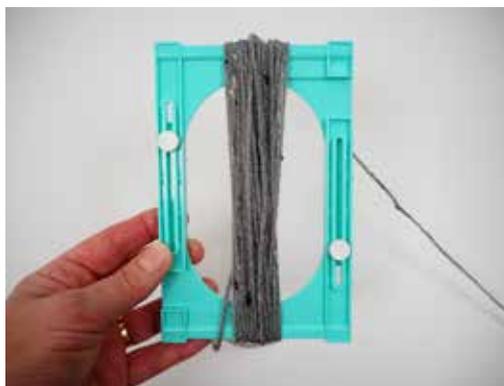

IMAGE 6

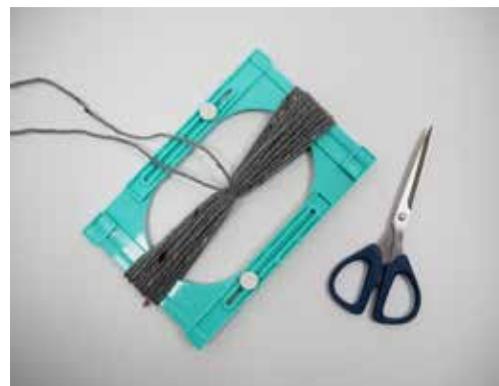

IMAGE 7

IMAGE 8

Crochet Wall Hanging with Fringe

Fold the tassel over and wrap it about 2cm down with a very long piece of yarn IMAGE 9.

Make two more of these and attach them using the long centre yarn to the top right hand space on the panel IMAGE 10.

TIP: odd numbers are the norm when putting on embellishments like this.

One didn't seem enough so I added two more IMAGE 11. You can add as many or as few as you like.

Make the pompom next. Using the natural yarn, fill the pompom maker well IMAGE 12.

Cut the yarn with the small scissors IMAGE 13. Tie the pompom off with a long piece of yarn IMAGE 14.

TIP: keep it long too because it will be used to secure the pompom to the wall hanging.

IMAGE 15

Crochet Wall Hanging with Fringe

Remove the pompom from the maker IMAGE 15 and secure it to the lower left space on the crochet panel IMAGE 16.

Finally, make the tassel fringe.

Cut 5 pieces of yarn 45cm long, fold in half and attach this yarn bunch to the bottom of the crochet panel with a Larks Head Knot.

Begin by folding the five pieces of yarn in half IMAGE 17.

Bring them through a chain stitch at the bottom of the crochet panel IMAGE 18.

Now bring the tails up and through that loop and pull tight IMAGE 19. This is what the fringe will look like from the front IMAGE 20.

Repeat every three stitches along the bottom chain IMAGE 21.

IMAGE 19

IMAGE 20

IMAGE 21

TIP:

you could leave it here and just trim with the large scissors.

Crochet Wall Hanging with Fringe

To shape the fringe, measure down 15cm on the outside tassels and make a mark with the water erasable marker IMAGE 22.

Cut with the larger pair of scissors from the centre tassel to make a point IMAGE 23. Repeat on the other side IMAGE 24.

Finish the wall hanging by stitching the panel to the stick with natural yarn and then make a hanger.

I made mine by crocheting a chain about 60cm long and tying it to each end of the stick.

TIP: the back on a project like this can look a bit untidy – there really isn’ t any way around this.

The best remedy is to cut a piece of felt and use some fabric glue to glue it to the back.

This will cover the threads and make the project look more professional.
