• [Patchwork Scissors: Mini](#)
(Art No.493/CW)

• [Patchwork Scissors \(17cm\) \(Fine\)](#)(Art No. 493)

• Fabric glue

Kitty Cat Punch Embroidery Brooches

Making

1

Print off the template and trace the image with the Iron-on Transfer pencil. Transfer the image onto the fabric with your iron.

2

Place the fabric with the image on into the hoop so that the image is central and tighten the hoop.

Kitty Cat Punch Embroidery Brooches

3

Thread the punch needle with the first colour and begin. The pink ears are the best place to start.

4

The black comes next leaving a large area for the eyes.

Next the green around the eyes.

Kitty Cat Punch Embroidery Brooches

5

And the white area.

Finally, fill in the pink mouth and nose.

6

Coat the back of the work with fabric glue.

tip: The best way is to put some glue on and then spread it with your finger.

Kitty Cat Punch Embroidery Brooches

7

When the glue is dry, use the awl to poke two holes for the eyes.

8

Insert the eyes and trim the excess from the back.

Kitty Cat Punch Embroidery Brooches

9

It is time to take the brooch out of the embroidery hoop. Trim the area around the cat so that about 1cm remains.

Make little snips in this 1cm margin.

10

Fold the excess fabric back and glue it to the back of the embroidery.

Glue the brooch onto the felt and allow it to dry. With the hand sewing needle, attach six or seven beads for a collar.

Kitty Cat Punch Embroidery Brooches

11

Attach the charm under the beads.
Trim the felt so that there is a small amount around the edge.

Designer's comment

I like to add a second piece of felt to hide the threads from the beads and charm. Trim that the same way as the first.

12

Finally, sew the brooch back onto the back about 1.5cm down from the top.
