

Garter Stitch Scarf

Knitting example and tips

1

With two needles, long tail cast on 24sts.

2

Take out one needle and start knitting the garter stitch.

3

Hold the needles firmly and knit with a steady rhythm.

4

You now have one row.

5

Turn the work and repeat 3.

6

Be careful not to insert the needle in the wrong position.

7

Continue these steps. As the work grows in length, you will feel a sense of satisfaction.

8

When the yarn runs out, tie the end loosely to the new one at the selvage. (For easy understanding, used different colored yarn.)

9

Unravel the knot and weave in ends later.

10

Five skeins used up. (Not easy.)

11

Bind off on the last row. Purl two stitches.

12

Pass the first stitch over the second stitch. Repeat these steps to end.

13

Pull the yarn end.

14

With a darning needle, weave the yarn end into the knitting stitches inconspicuously.

15

Completion!

Needles

- Bamboo Knitting Needles Takumi Single Pointed(Art No. 3714)(23 cm/ 6.5 mm)
- Bamboo Knitting Needles Takumi Single Pointed(Art No. 3715)(23 cm/ 7 mm)
